ADVANCE

## **Small Group Discussion**

How do you plan to move forward based on lessons learned and activities completed today?

What barriers/challenges do you foresee by moving forward with these (possibly) newer approaches? What buy-in and benefits do you foresee by moving forward?

How can you utilize those barriers/challenges to refine next steps and how can you address the barriers and challenges? How can you utilize the potential benefits/areas of buy-in to further develop buy-in to move forward?
